Dear Patients,

Due to the recent six counties **Shelter-In-Place**, we have decided to shut down all **non-essential services** to help contain the spread of COVID-19. There is growing evidence that COVID-19 may be spread in the absence of symptoms.

To safeguard our patients and staff, we will be shutting down all non-essential services until April 7th.

Services that will be available day-by-day (Mondays-Fridays only) in limited hours:

1. Dispensing of current pending orders (9:30AM – 1PM **with appointment only**. No walk-ins)
2. Medical emergencies (9:30AM – 1:00PM **with appointment only**. No walk-ins)
3. Phone services for any questions you may have (9:30AM – 1:00PM)
4. Direct shipping of contact lenses (Call during our phone service hours to order). We will extend any prescriptions expired within 6 months.
5. Emergency phone consultation (Call 650-992-2020 during phone service hours. If after those hours, you can leave a message on 925-216-5230).

This is a constantly evolving situation that may require us to make changes if necessary.

Thank you for your patience and understanding during these unsettling times.

With warmest regards,

Your friends at Westlake Vision Center Optometry
